REPORT
OF THE
BOARD OF EDUCATION,
OF THE
TOWN OF ALEXANDRIA,
For the year ending March 1, 1887.

It will be seen by the statistical report that, during the past year, our schools have been continued separately in the several school buildings. The question will be asked "Why has not the number been diminished?"

Our first reply is, this was the expression of the district, by vote, at the annual meeting. A few years ago the number of districts was reduced from fourteen to nine, which seems to us as near consolidation as so large a territory, sparsely settled, can well be made.

There has been some discussion concerning the section of district formerly known as District No. 1. It is a small school, but the pupils who comprise it come from the south-west part of the town, near Danbury line, upon different branches of road, and would be obliged to pass a modern school-house, one of the best in town, to reach the next school, a distance of from three to four miles. What parent would send his child that distance over a rough and hilly road, and who would take them to and from their several homes for one dollar per day? We have placed in this school efficient teachers, and both terms have been successful. This has been done at a less expense than would have been possible by uniting.

The same objections would arise regarding the removal of division No. 2, to unite with No. 1. Two miles seems to us as far as young children ought to be compelled to go.

The time of commencement of terms has been varied, so that those scholars living near division lines, might receive the benefit of adjoining schools. We have endeavored to supply the schools with teachers whose education is unquestionable, and whose experience or ability rendered them competent instructors. If in some instances our highest expectations have not been realized, we have no hesitancy in saying that as a whole, excellent work has been done, and the standard of scholarship is much higher than a year ago. There are developing in our schools, strong, thoughtful minds, whose careful training should be the first thought of parents and educators. In such a work no narrow line of thought will satisfy, no half effort will succeed.

Annual Report of the Trustees

—OF THE—

HAYNES LIBRARY.

— o —

The trustees of the Haynes Library herewith respectfully present their report of the affairs of the library, together with the report made to them by the Treasurer of the board, showing the expenditures made by him in behalf of the board from funds placed under their control, and the report of the Librarian, which sets forth in detail the statistics and operations of the library under his charge, at the close of the year.

At a meeting of the board soon after election, O. S. Gale was elected treasurer, and he gave suitable bonds. The board received several proposals for the office of Librarian, and from that number elected Miss Emogene Roby, who did all necessary work for \$.50 per day, of four hours each, one such day in each week. Miss Roby resigned Oct. 23. A. F. Cheney was then selected as Librarian for the balance of the year, at the same price per day. The Trustees have also obtained and placed in the library room, a fine crayon picture of the late Timothy Haynes, M. D., who so generously gave \$1,000 toward the library. The library has been open for delivery of books every Saturday except one, Feb. 27, 1886, which was so very rough and windy that it was thought advisable not to open the library.

Respectfully submitted,

A. F. CHENEY,	}	Trustees of Library.

Librarian's Report.

Gentlemen of the Board of Trustees :

I respectfully submit my annual report of the Haynes Library, showing the work for the year ending Feb. 12, 1887 :

Number of books Feb. 20, 1886,	620
Added during the year,	4

Number of volumes at present,	624
Number of days open for delivery of books,	50
Number of volumes in circulation,	4,075
Average per day,	81
Largest number in any day, Mar. 6,	196
Least number in any day, Nov. 13,	42
Largest number in any month, March,	577
Least number in any month, Nov.,	239
Amount of fines received,	\$3.45

During the past year the books have stood the wear well, but some of them will have to be rebound soon. One book only has been let out but what has been returned. If some of the readers would be more careful of the books, and not let small children have them, some of the books would look very much better.

Respectfully submitted,

A. F. CHENEY, *Librarian.*
